Lucknow, Uttar Pradesh

PROFESSIONAL SUMMARY

Software Developer with 4+ years of experience specializing in React.js, Next.js, JavaScript, Redux Toolkit, and React Query, developing scalable, responsive, and high-performance web applications. Experienced in frontend development, reusable components, RESTful API integration, state management, authentication, responsive UI/UX, and performance optimization, with working knowledge of Node.js, Express.js, MongoDB, Git, Jest, and Docker.

SKILLS SUMMARY

- **Languages:** React.js, Redux Toolkit, Node.js, MongoDB, TypeScript, JavaScript, HTML5, CSS3.
- **Frameworks:** Next.js, Express.js, Tailwind CSS, Shadcn, Bootstrap.
- **Tools:** Git, CI/CD, Jest, PostgreSQL, MySQL, Jasper Reports, Sequelize ORM, Docker.

EXPERIENCE

- **Jublitech Solutions Pvt. Ltd.** Full-time
Aug 2025 – Present
Software Developer
 - **Application Development:** Developing scalable and high-performance web applications using React.js, Next.js, JavaScript, Redux Toolkit, and modern frontend practices.
 - **Performance Optimization:** Improved application performance and page load times by up to 35% through code-splitting, memoization, lazy loading, and optimized component rendering.
 - **API Integration & State Management:** Integrated RESTful APIs and managed complex application state using Redux Toolkit and React Query, including authentication, error handling, and secure data communication.
 - **Cloud & Deployment:** Worked with AWS S3 for media and file storage while gaining hands-on exposure to AWS deployment strategies and scalable application infrastructure.
 - **UI Development:** Built reusable, responsive, and user-friendly interfaces using Tailwind CSS, modern React patterns, and component-based architecture.
- **Rhobos IT Solutions LLP** Full-time
Oct 2024 – Aug 2025
React.js Developer
 - **State Management & API Integration:** Implemented complex asynchronous flows using Redux Toolkit and React Query, integrating RESTful APIs with authentication, error handling, and secure data communication between frontend and backend.
 - **Performance Optimization:** Enhanced application performance by optimizing rendering speed using React Hooks, memoization, lazy loading, and code-splitting, improving application load time and overall user experience.
- **INFRANIX Technologies Pvt. Ltd.** Full-time
Feb 2022 – Mar 2024
Software Developer
 - **Web Application Development & Authentication:** Engineered scalable MERN applications using MVC architecture and implemented JWT-based role-based access control to strengthen application security and user management.
 - **API Integration & User Experience:** Integrated third-party APIs including Google Maps and Stripe, enabling location-based services, seamless payment processing, and improved user experience.

PROJECTS

- **Alive AI – Smart Disease Prediction & Health Report System :** Developed an AI-powered platform to collect user data and generate predictive health reports based on various conditions. Utilizes rule-based logic and machine learning techniques to provide personalized insights into health risks, enabling early detection and prevention. The system focuses on delivering actionable health insights and recommendations for lifestyle improvements. Currently under development.
- **Service Manager – Repair Shop Management Platform :** Developed a web application for electronic device repair shops, enabling vendors to manage repair orders, track device status, and process transactions using React.js and Tailwind CSS. Integrated flexible plan management with subscription options, storing user data and permissions in MongoDB. Built scalable RESTful APIs using Node.js and Express.js to manage customer information, repair history, and payment operations. Focused on delivering responsive and intuitive UI/UX across devices.
- **Style Chamber – E-commerce Platform for Luxury Furniture & Interior Services :** Developed a premium e-commerce platform offering VIP chairs, furniture repair, and interior design services. Created rich UI/UX with parallax scrolling, image zoom, and scroll-triggered animations using React.js and Tailwind CSS. Designed responsive product listing pages with dynamic filtering and smooth transitions. Integrated shopping cart functionality, user authentication, and backend APIs with Node.js, Express.js, and MongoDB to manage products, users, and orders.

EDUCATION

- **Shri Ramswaroop Memorial University** Lucknow, India
July 2016 – June 2020
Bachelor of Technology – Computer Science and Engineering
